- Promo I : cashback Rp 30.000,-/Subject/Student : Registration and Payment period : 20 March - 8 April 2023
Promo II : cashback Rp 25.000,-/Subject/Student : Registration and Payment period : 1 April-31 May 2023
Promo III : cashback Rp 20.000,-/Subject/Student : Registration and Payment period : 1 June-18 August 2023
- **Frequently asked questions**
Q: Why is the ICAS assessment for Year 12 (SMA 3) discontinued in Indonesia? ***NEW***
A: Year 12 is a time when end-of-school tests take precedence over as students prepare to transition to post school studies or work. It is a time of greater specialisation within the curriculum with a range of more diverse study areas requiring detailed analysis, focus and an increasing time commitment from students. We expect that it is for this reason we have seen a steady decline in demand for the ICAS Year 12 tests in all subjects over the last few years. We will continue to develop world class assessments for Years 3-11 that encourage creativity and problem-solving skills in order to equip students with the tools they need to take on the challenges of Year 12 studies
- Q: Why is the ICAS Digital Technologies from Year 9 (SMP 3) onwards discontinued ? ***NEW***
A: Digital Technologies is now considered foundational skill that all children need in order to progress satisfactorily as they move from Primary to more specialised content in STEM subjects in high school. We have standardised the year levels Digital Technologies is available in, now start early in students' schooling with Introductory papers and finish with Paper E as students are moving into high school. We continue to test a comprehensive range of content in this subject, content aimed at developing the skills required to tackle all high school study in the 21st century.
