What it means to win an ICAS medal

Winning an ICAS medal is a BIG deal. Students must achieve an impressive score that is the highest in their entire region, as medals are reserved for the top 1% of participants. This is a huge accomplishment usually celebrated by schools in awards assemblies.

Congratulations again to our 2025 medal winners on your astounding achievement!

I'm a 2025 ICAS medal winner!

How do you feel about winning an ICAS medal and what do you love about ICAS?

"Hi, I'm March Raphael from Surabaya Grammar School. I won two gold medals in Science and English. This is my second time joining ICAS, and I'm really happy because it's quite challenging. I used the sample papers to prepare, and they helped a lot. I'll definitely join ICAS again next year!"
